Irwin, Pa., Jan'y 2nd 1892

Hon O. C. Barbyrell

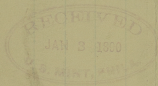

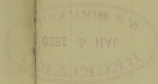

Dear Sir do you keep a record of work done at the Mint. or have you any old records of assays. What we want to know is this we think we have discovered a Silver Mine, and there was a sample of the rock sent to the Mint to be analyzed we hear an old tradition that it was supposed to have been tested there, and now we ask you to give us the information if you have any such, this was sent to the Mint about 53 or 55 years ago and perhaps 58, years ago. We cant tell the exact date and was sent by a man by name of David Hoagls or Laugh, it is something like that, and it goes to say that it turned out 37 ct to the lb, of rock which we think if true is pretty good we thought if such a thing was tested there and such a good thing you would certainly keep a record of it. We hope to hear from you soon

C. C. McGrew & Sons

Wants information concern-
ing sample of rock sent
for assay 53 to 55 years ago.

[RG104 E-1 Box 161]

[Abstract:] Wants information concerning sample of rock sent for assay 53 to 55 years ago.

O.C. McGrew & Sons,
Dealers in Hardware, Stoves, Ranges, Pumps, Agricultural Implements

Irwin, Pa., January 2nd 1890.

Hon O.C. Bosbyshell

Dear Sir do you keep a record of work done at the Mint or have you any old records of assays. What we want to know is this we think we have discovered a silver mine, and there was a sample of the work sent to the Mint to be analyzed. We have an old tradition that it has supposed to have been tested there and now we ask you to give us the information if you have any such. This was sent to the Mint about 53 or 55 years ago and perhaps 58 years ago. We can't tell the exact date and was sent by a man by name of David Hoagle or Hough, it is something like that, and it goes to say that it turned out 37 ct to the lb, of rock which we think if true is justly [?] good we thought if such a thing was tested there and such a good thing you would certainly keep a record of it. We hope to hear from you soon.

Your Fraternally
O.C. McGrew
